PRIMARY TICKET THREE FEET LONG FOR ALL PARTIES

Massac County Citizens Walk
Through Rain to Nominate
Candidates.

Illinois Experimenting With
Its New Law.

FIGHT ON FOR LEGISLATURE.

Metropolis, Ill., Aug. 8. (Special.)—Members of Massac county of all parties are going through the rain today to vote a ticket exactly three feet long at the first primary under the new law. The four parties have tickets, the Republicans blue, the Democrats yellow, the Prohibitionists white and the Socialists red. This primary is unique in that the parties are selecting, not only candidates for public offices, but state central committees, senatorial committees and precinct committees, and there will be no convention to ratify the popular choice. The result is being watched with interest. Sometimes the most popular man is not the shrewdest campaign manager, and the raucous aroused in the heated fight between candidates of the same party for the nomination may be carried in to the campaign; but, of course, neither side has any advantage there. Candidates for United States senator, governor, state and county offices are being nominated.

The County Ticket.
In this county, which is overwhelmingly Republican, great interest centers in the local races for Republican nominations, especially in the legislative race in which G. W. Hill is seeking to displace one of the two incumbents.

The local Republican ticket is:
For Representative—Chas. Dupree, G. W. Hill, Peter L. Matthews, W. H. Flanagan, Jr., Lewis R. York.

For Clerk of Appellate Court—Albert C. Millspaugh, William M. Gandy.

State Central Committee—Fred W. Potter, Tony H. Kerr, C. S. Erwin.

Senatorial Committee—Cyrus P. Treat.

Circuit Clerk and Recorder—Coffey Morris, Robert T. Alexander.

State's Attorney—Fred H. Young, Fred Smith.

Coroner—T. L. Wallace.

County Surveyor—W. Thomas Perkins.

County Commissioner—W. H. Thompson, Grant Weaver, Thomas I. Parker.

Pleasant T. Chapman is picked for winner of the congressional nomination over Orlando Burrell.

The State Ticket.
Senator Hopkins' seat is being contested by former Senator William E. Mason, George Edmund Foss and William G. Webster; but it is probable that the voters have instructed for Hopkins, although one never can tell what the people will do in the secrecy of an election booth.

Governor Deane is expected to defeat former Governor Richard Yates for re-nomination.

Secretary of State James A. Rose is the best bet in his race for nomination. He has four against him, Fred E. Sterling, John J. Brown, Bert H. McCann and William P. Lynch.

Andrew Russell has no fight for the nomination for state treasurer. For auditor J. A. McCullough and J. W. Templeton are candidates. William H. Stand is the only aspirant for the Republican nomination for attorney general.

The remainder of the state Republican ticket is:
Lieutenant Governor—John G. Oglesby, George Shumway, Thomas H. Knight, Samuel J. Drew, Frank L. Smith.

Auditor of Public Accounts—James S. McCullough, J. W. Templeton.

State Treasurer—Andrew Russell.

Attorney General—William H. Stand.

Clerk of Supreme Court—Christopher Mamer, J. McCan Davis, Edgar T. Davis, Albert D. Cadwallader, James Kinney, George W. Fisher, George R. S. Hoffman.

Member State Board of Equalization—James B. Blackman.

The leading candidates in the Democratic party for the nomination for governor are former Vice President Adlai E. Stevenson, of Bloomington; Douglas Patterson, of Freeport; John P. McGorty, James Hamilton Lewis, Charles E. Gunther, and James O. Monroe, all of Chicago.

The name of Judge E. R. E. Kimbrough, of Danville, will be on the ballot although he has practically withdrawn from the race. The Democratic candidates for the senate are Lawrence Stringer, of Lincoln, and Addison Blackely, of Chicago.

PADUCAH HAS GROWN INSTEAD OF LOSING

Caron Directory Will Show
Population of More
Than 29,000.

Paducah, instead of losing during the period of industrial paralysis, actually grew, and the Caron directory, just completed, will show more than 29,000 population, as compared with 28,840 for 1906-7. The gain is a trifle more than 500, a record for the same period. This estimate is based on the multiple of two, extremely conservative, and one that directory agents admit will show less than the actual population. New York uses a multiple of five and in other directory company uses less than 2 1/2 as a multiple. The names of heads of families and single persons over 17 years old, or over 14 if they are working, appear in the directory. Census takers for the company found few houses vacant besides dilapidated tenements. Many families double up during the winter and some tenants purchased their own property. The directory agents will begin making deliveries next Tuesday morning.

Water in Cable Halls Service.
Many telephones in the business part of the city of the East Tennessee Telephone company were out of commission this morning, because of water getting in a cable. A cable in the room of the exchange was found with a hole in it, and before it could be repaired the heavy rain descended and water entered the cable.

Cardinal Gibbons Much Improved.

Rome, Italy, Aug. 8.—Cardinal Gibbons is very much better this morning and the symptoms of intestinal indigestion have disappeared. The Cardinal was taken ill Wednesday at the Vatican and was brought to the next day into Rome. He slept quietly last night, and this morning his temperature is normal. The possibility of any complication is over. The pope has been informed of the satisfactory condition of the Cardinal, at which he expressed great pleasure. Many people have called to inquire regarding the Cardinal's health.

BIG FLOUR MILLS INTO RECEIVER'S HANDS FOR WHILE

Minneapolis, Aug. 8.—The Pillsbury-Washburn Milling company, one of the largest in the country, was placed in the hands of C. S. Pillsbury, A. C. Loring and C. A. Cobb as receivers. The lack of cash to buy wheat at the prevailing high prices for export contracts, caused the receivership. Unsecured liabilities are five millions. Secured liabilities are four millions. Assets are fifteen millions.

LODGES FEEL EFFECT OF THE MONEY STINGENCY.

Odd results have followed the panic and how ramified its effects were is shown by the complaints of secret orders that new members have been few and far between since the depression began. They say that many probable members are renouncing out of the lodges, because they do not care to turn loose the price of an initiation fee and the subsequent dues. Withholding the goat, therefore, has been a rare sight in the lodge rooms and the treasurer's report some little backwardness in the collection of dues. However, prospects are brightening in this as in all other lines, and by fall the lodges hope to see a great boom from the enforced quietness.

State Convention of the Farmers' Union Completed Its Organization By Electing Officers Last Night

"RESOLVED, THAT WE, AS A UNION, DO HEREBY EXTEND OUR THANKS TO THE PADUCAH EVENING SUN AND ALL OTHER PAPERS IN THE STATE FOR THEIR LIBERAL SUPPORT IN BEHALF OF THE FARMERS' UNION SINCE IT HAS BEEN IN THE STATE, AND THE ASSISTANCE THAT THEY RENDERED THE LEADERS OF THE UNION IN PROMULGATING THE PRINCIPLES OF JUSTICE, EQUITY AND THE 'GOLDEN RULE'—RESOLUTION UNANIMOUSLY ADOPTED BY THE STATE CONVENTION OF THE FARMERS' UNION.

With the election of officers the first state convention of the Kentucky Farmers' Union came to an end this morning, leaving the executive committee in session, and spending the remainder of the time in discussing such matters as warehouses, pooling agreements and arrangements for carrying the purposes of the organization into effect. The constitution has been adopted.

The following officers were installed this morning:
President—Robert Johnson, Tolu.
Vice President—A. L. Wilson, Hickory Grove.
Chaplain—W. W. Morris, Paducah.
Conductor—J. L. Robertson, Mayfield.
Secretary-Treasurer—H. L. Barnett, Paducah.

Doorkeeper—J. C. Denton.
Executive Committee—Like Thomas, Paducah; Sam P. Jones, Cammingsham; John Grady, Calvert City; T. B. Latta, Fulton; M. B. Tapp, Woodville.

A meeting of the state presidents of 26 states will be held at Memphis August 26, and Mr. E. Hunyan Carter, of Mississippi, one of the best known orators in the organization, will be present by invitation, as well as President Robert Johnson.

In Session Until Three.
Stated residents on Broadway looked out at 1 o'clock this morning on the delegates to the Farmers' Union meeting with their county banners from the Auditorium risk to their hotels downtown. After a night session that ended at that early morning hour the convention called to perfect a state organization, adjourned and the delegates today returned to their homes. Twenty-two counties in the Purchase and Pennyrile were represented.

Only the newly elected state officers and the executive committee have any official business here now. All morning sessions were held behind closed doors at the New Richmond House, in which questions of

LEE GARDNER ARRESTED ON SUSPICION OF HAVING BURNED O. E. POTTER'S SALOON

Patrolman Catches Him On His Return From Cairo and Fire Marshal Is Sent For.

First arrested as a suspect, but later on a charge of disorderly conduct, Lee Gardner, colored, is in the city jail, and State Fire Marshal W. P. Nelkirk has been telegraphed to return. Gardner is suspected of having set fire to the grocery and saloon of O. E. Potter & company, and the police and Fire Chief Wood have been on his trail since the fire. Gardner is said to have gone to Cairo the morning after the fire, and had worked for Potter & company as porter.

Marshal Nelkirk left instructions when he went away this morning, to notify him at once if Gardner was caught, and he would return. Gardner came to Paducah this morning, and Patrolman Merry caught him hiding in a house in the north part of the city. It is said that evidence has been secured by Marshal Nelkirk and Chief Wood that Gardner is the man that touched off the match.

Feed Wire Breaks.
One of the big feed wires for the electric lights in the business portion of the city yesterday afternoon about 5:15 o'clock at Fourth and Jefferson streets. A corps of eleven men rushed to the scene, and in an hour lights were turned on just as the stores began to get dark.

FRAUD IN CHICAGO

Chicago, Aug. 8.—Charges of fraud were made from the start of the voting today. There were riots on the South Side. The voting is light,

TRADE IS IMPROVING FOR THE FACTORIES

Lack Concerns Resume With
Hundred Men—Stores
Are Invoicing.

Bank clearings this week reached the figure of \$570,819.31. Last week was a quiet one in business circles, due to the merchants taking their inventories and being busy placing the fall stock on the shelves. No tobacco sales were held, and this cut the clearings down at least \$100,000, but the merchants are looking on the bright side and confident that the autumn trade will show up to the average.

Both the Lack Singletree company and the Lack malleable iron works resumed operations with 100 men, and the car department of the Illinois Central shops had made an increase of 50 men. Mr. Lack has returned from the east after booking orders, and he is sure that the singletree demand will be twice as heavy as it was last year. The Columbia Manufacturing company has booked many orders and besides the steady tone of business there will be an extra demand soon.

Fire Marshal Leaves.
State Fire Marshal W. F. Nelkirk, who has been in Paducah for two days investigating the fire of O. E. Potter & company, left this morning at 1:33 o'clock for Greenville, Mr. Nelkirk and Chief Wood, of the fire department, held a court of inquiry yesterday afternoon in the hope of shedding more light on the suspected incendiarism. Mr. Nelkirk will return to Paducah in a few days.

FIND MISER'S FORTUNE

Jerseyville, Ill., Aug. 8.—Money and valuables worth \$24,000 were found in the box car, where Peter Meyer, the alleged refugee, was found dead yesterday. The county attorney has taken charge of the funds. Meyer's wife has been an inmate of the Jacksonville asylum several years.

NORWAY IN HUFF

White Sulphur Springs, Va., Aug. 8.—Hundreds of visitors thronged the hotel where the Tafts are visiting. The candidate held an informal reception and hand-shaking bee. The fact that Taft and his wife led the hotel dance last night may cause a diplomatic tangle. Norwegian Minister Gude and wife refused to dance because he couldn't lead, saying his position entitled them to the preference.

KILLS WIFE'S COMPANION

Coffeyville, Kas., Aug. 8.—William Hill, a prominent farmer, killed David Alexander, whom he found driving with Mrs. Hill. The couple had been separated some time. Hill was watching his neighbor's patch last night when Alexander and Mrs. Hill drove by. He stopped the horse and fired at Alexander, but missed. He reloaded and chased Alexander along the road and shot him. He mocked his wife when she wept over the body and then escaped.

MAY OPEN BALLOT BOXES TO SETTLE CHARGE OF FRAUD

St. Louis, Aug. 8.—Ballot boxes here may be opened as the result of fraud charges in the recent primary. Friends of David Hall, the defeated candidate, for the Democratic gubernatorial nomination, claim this is the only way to settle the question. Cowherd, the successful candidate, announced that he will do anything reasonable. Prosecutor Sager is anxious to prosecute, if frauds are discovered.

LONGEST AIRSHIP FLIGHT

Washington, Aug. 8.—No bird of the air ever sailed a truer course from point to point than did the rigid wing dirigible. Straight as an arrow from the bow, the airship sped across the country at a height of 500 feet. The westerly course was held for eight minutes, during which time the ship traveled two miles to Balston, Va. Here they swung to the north in another wide circle and sped back to the parade ground, still at the same speed. This was the longest flight made, lasting altogether seventeen minutes and finishing exactly at the starting point, much as a man would walk over a field and return to the place he started for exercise and with as much apparent ease.

NIGHT RIDER OATH.

In his testimony in the trial of Jake Ellis, Wiley H. Stewart said the oath required of a night rider was as follows:
"I, _____, in the presence of Almighty God and these witnesses, do solemnly promise and swear to become a member of this order. I do solemnly promise and swear that I will not reveal or cause to be revealed the secrets of this order by signs, acts or writing. I, _____ do solemnly promise and swear that I will obey all orders that are given me by the captain and I will go at any time that they may call upon me, unless I or my family are sick. If I should betray this order in any way I shall have to submit to the penalty, which may be put upon me, which is death. To all of this I do most solemnly promise and swear, so help me God."

(By Perry Nelson.)

Murray, Ky., Aug. 8.—According to the confession of Will Ingram, 29 years old, who admits he has been convicted of stealing, night riders in the eastern part of Calloway county used the Center Ridge church for an arsenal, and they met there February 15 to start to the home of D. M. Hendrick on the Tennessee river near Pine bluff. He said Bob Duncan, Ed Thompson, Jasper Garland and Kelsie Kirk were in the band which burned Hendrick's barn, but they got an empty one.

Ingram said he made his first confession to Captain Walker, of the state militia, at Golden Pond, Trigg county.

On account of the rain and bad roads, witnesses were slow in arriving this morning, and it was 10:30 o'clock before court convened to resume the trial of Jake Ellis, accused of night riding.

SIX PASSENGERS AND TWO OF CREW SINK WITH BOAT

Winnipeg, Man., Aug. 8.—Six passengers and two of the crew lost their lives when the steamer Premier burned to the water's edge at Head Lake, Winnipeg. The rest of the passengers had narrow escapes. Three of the victims were children.

SOLDIERS HERE

Part of Company B, from Hopkinsville, was in Paducah last night, but the soldiers left for Murray this morning to strengthen the camp there. The Hopkinsville company has been out for several weeks and have been relieved from duty near Hopkinsville and assigned to duty at Murray under Captain Carl Henderson.

HARRY THAW TALKS

Poughkeepsie, Aug. 8.—Harry Thaw issued a statement denying the declarations of Hattie Forsythe, the actress, that Evelyn Nesbit's testimony in his trials was untrue. Thaw says Miss Forsythe never met White and met Evelyn only once. All her information is second hand. He says the actress is seeking only stage advertising. Thaw explained that he filed his petition in bankruptcy because he is in jail and can't attend to his estate and fears it will be wasted.

BRYAN TICKLED BECAUSE RATES ARE NOT LOWERED

Lincoln, Neb., Aug. 8.—Bryan was pleased over the action of the Western Traffic association in refusing special rates to the Bryan notification. He is sorry his friends cannot attend the ceremony, but he believes it will mean 75,000 Democratic votes in Kansas, Idaho and Nebraska, where the railroads are the real issue of the campaign. He believes that if the orators will show reduced rates to the Taft notification, but discrimination against him, he will carry these states. Governor Haskell, treasurer of the national committee, left for Chicago, where he will confer with the finance committee Monday, regarding the raising of a half million dollars wanted for the campaign.

In Bankruptcy.

If no objections are filed by Monday, August 10, the last sale of the Mergenthaler-Horton Hasket company will be ratified by Judge McCall, of Memphis, to F. E. Lack, of this city. The mammoth plant will then pass into local hands to be used in various projects for Paducah's industrial advancement.

FILTH AND VICE

CRUSADE INSTITUTED BY THE DISTRICT OF COLUMBIA.

Dirty Restaurants and the Immoral Women Immigrants Are Put Under Ban.

Washington, Aug. 8.—The national capital is being cleaned up—both physically and morally. For the past three weeks the health authorities have been conducting a successful crusade against unclean lunch rooms and hotels. They have invaded the kitchens of nearly every public eating place in the District of Columbia. Filthy conditions almost unbelievable were found in many of the so-called first class restaurants. A number of proprietors

have been arrested and fined and others have been forced to quit business. All have been ordered to put their kitchens in proper condition if they wish to continue serving the public. Clubs and even boarding houses have not been exempt from the operations of the official microbe chasers.

But the district house cleaning has not been confined to food purveyors. An anti-vice crusade is now on, said to have been ordered by President Roosevelt from Oyster Bay. Immigrants adjoining the new municipal building, which was dedicated on the Fourth of July, and almost within a stone's throw of the white house is Washington's red light district, which since the days of the civil war has remained practically undisturbed. It has been the scene of nightly orgies that hitherto have seemed beyond the ability—or inclination—of the police to control.

As a preliminary step in the campaign against the denizens of "the division," as it is called, Major Sweeney, superintendent of police, has ordered the streets in that section of the city cleared of loafers. Unless a pedestrian can give a legitimate reason for his presence in the locality after midnight he is ordered to move on, or go to the nearest police station. In this way, the authorities hope to break up the business of the section. Hints have been given to the proprietors of illegal resorts that they will be allowed a reasonable time to move to another part of the city, or get out of town altogether.

The district government has for

years believed in the policy of segregation of vice, and in line with this it is probable that a new red light section will be created in a part of the city further removed from the business and residence district. Coincidentally with the cleaning out of "the division," a crusade against fallen women living in vice has been started by the immigration bureau, also under orders from Oyster Bay. Several arrests have already been made of women, who, the authorities say, came to this country for immoral purposes. These, and others if they may be discovered, will be deported.

Hazel Stars Win.
Hazel, Ky., Aug. 8.—The Hazel Stars won two games from the Benton team this afternoon by scores of 5 to 3 and 10 to 4. The games were witnessed by a large crowd of enthusiastic rooters, and the game was kept warm. Miller and White pitched good games for the Stars. Marshall was umpire.

Princeton Beats Jasper.
Princeton, Ky., Aug. 8.—With a record of 22 victories out of 25 games, the Princeton Jewels blackened the record of the Jasper, Ind., Reds by taking two games by scores of 2 to 1 and 4 to 0. Stevens pitched the first game and allowed only four hits. Runyan, of the Paducah Indians, pitched the second, a shut-out, and allowed only one hit. The second game is the first time that the Reds ever were given a dose of whitewash.

A Class Badge.
In New Haven the committee of a graduating class once went to a local jeweler with a commission for a class badge. They had in view a design representing a youthful graduate surveying the universe.
"About how large would you like the figure?" the jeweler asked.
"Well," said the spokesman, "we thought the graduate ought to cover about three-quarters of the badge and the universe the rest."

MERRY WIDOW

TRUNKS ARE BEING BUILT BY PADUCAH MAKER.

One Large Enough to Accommodate Boze Saw Style Without Crushing It.

To house "Merry Widow" hats while traveling, E. H. Steman is building an extra large trunk at his factory. The trunk comes as a response to calls for trunks large enough to carry the big hats of this season without crushing them. The trunk will be 24 inches wide, 21 inches long and 22 inches deep, and with these measurements it is thought the trunk may be packed with eight "Merry Widow" hats. The usual sizes of hat trunks are 16 inches wide, 18 inches long and 20 inches deep. The trunk is of sufficient size to hold all of the large hats that one woman is likely to have in her wardrobe while traveling. The trunk will be finished with canvas as an ordinary trunk, but the novelty will be in its size.

Gorky.
Maxime Gorky, the famous Russian novelist, who has just celebrated his fortieth birthday, has already written his autobiography. It is the first on record. The manuscript was sent to the publisher of Gorky's works in response to a request made for the novelist's autobiography. This was what the manuscript contained: 1878 was apprenticed to a shoemaker; 1879, was apprenticed to a designer; 1880, became a kitchen boy on a packet boat; 1881, light

Hot Weather

During hot summer weather men, women and children will drop down from sunstroke and heat prostration, if the constitution is weak.

Everyone should, during these hot, humid days, be on guard. Life depends on care. Keep the body strong and vigorous with pure water, orange fruit. Eat and drink with discretion. Put a teaspoonful of Duffy's Pure Malt Whiskey in each glass of water you drink. It kills all disease germs. Described as a family medicine by thousands of leading doctors. If you wish to keep strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. Duffy's Pure Malt Whiskey tones and strengthens the heart action and purifies the entire system.

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain; great care being used to leave every kernel thoroughly malted, thus destroying the germ and producing a predigested fluid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water.
Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for \$1.00 per bottle. If in need of advice, write Consulting Physician, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctors will send you advice free together with a handsome illustrated, medical booklet containing some of the many testimonials and gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of the World's greatest tonic.

ANNOUNCEMENT.

County Court Clerk.
 The Sun is authorized to announce Hiram Smedley a candidate for reelection to the office of Clerk of the McCracken County Court subject to the action of the Democratic party.
For City Jailor.
 The Sun is authorized to announce W. T. (Billie) Read a candidate for City Jailor, subject to the action of the Democratic primary August 6.

Daily Thought.

"Few men are in moral danger as great as those who proclaim religion so strenuously they feel no need to practice it."

THE TICKET'S WEAKNESS.

We rise to the point of inquiry: For which two Democratic candidates for aldermen would the News-Democrat substitute Councilman H. R. Lindsey and Alderman Baker to add "substantial strength to the ticket?"

In the course of a leading editorial this morning that rather dilatory sheet, which failed to advise its readers in advance of the superior qualifications of the defeated candidates, says:

"The News-Democrat does feel, however, that there were two gentlemen who were left uncrowned who, if nominated, would have added a substantial strength to the ticket. In saying this we have no desire nor is it our intention to cast any reflection upon any of the other candidates, knowing them all to be good reliable men; but it has reasons to believe that in not selecting Messrs. Lindsey and Baker as aldermanic nominees a mistake was made."

The Sun heartily concurs in all that is said of these two tried and proven officials, that is commendatory; but the organ says they "would have added strength to the ticket," which can mean nothing unless it means that the ticket is not as strong as it would have been, had they been elected instead of two who are on the ticket. To clinch this conclusion the organ insists "it has reasons to believe that in not selecting Messrs. Lindsey and Baker as aldermanic nominees a mistake was made."

Since their nominations were possible only through the defeat of somebody, who was nominated, the mistake in not selecting them could be expressed without changing its meaning, by saying that a mistake was made in selecting two of the men on the ticket.

There are other weak points in the ticket the News-Democrat might point out; but, as we pointed before, it is rather late. Democratic partisans who went to the polls and voted at the primary may resent this tardy criticism of their action, since their mentor did not warn them before hand how they should vote.

Pressed too far, he simply would have to close up shop.
 The chief question between capital and labor is one of compensation, and capital to benefit or interest labor must include an investment of brains as well as money. Legitimate co-operation for their own good and advancement among laboring men has much to do with securing for them their proper share of the rewards of the business; but if the manufacturer must sell his product cheaply, he cannot pay high wages. This margin between the cost of the raw material and the cost of the finished product is one that the working man must maintain, if he would profit, and it is this margin that marks the difference between the working men in free trade Europe and the working men in protected America.

Cheap times are never good times. In times of high wages a man may forego luxuries and save a competence. In times of low wages, even with a corresponding reduction in the cost of living, which does not follow as a matter of course, he has no surplus to lay by.

We live higher than any other people ever lived—higher than our ancestors. Here is what the national bureau of labor has learned:

"Is the high standard of living adopted by the American workmen a mistake?"
 "Would he be happier with the conditions that surround the English or the German laborer?"
 "The bureau of labor answers these questions in the negative, its reply being based on reports of investigations into the cost of living in the United States, Germany and England, just made by the respective governments."

"The bureau lays emphasis upon the food that the American eats. The table of the American workman is more abundantly supplied and with far greater variety, it is declared, than either the German or the English. The food of the American workman costs more, but his table does not require nearly so large a wage percentage as that of the Englishman or the German."

"Another joy that the American laborer is able to experience by his standard of living is that of keeping his family together. Statistics show that the family of the American living at home is larger than that of the German or the Englishman. The American industrial family averages slightly more than five persons, with three children to a family living at home."

"A comparison of the cost of living shows that the credit the English have been given for generations, of being the greatest beef eaters on the globe, is unwarranted. The American workman and his family eat much more meat than the English. The reports indicate that the position of the English workman is more fortunate, in regard to wages, rental and food than the German, but that in all these particulars the honors go to the American."

It was fate that guided the "make-up man's" hand yesterday, when he placed at the top of the column a Constantinople telegram headed, "Young Turkey is Triumphant," and right under it one headed, "Fresh Foul is Better Than Cold Storage Variety."

FAIRNESS.

A second tribute to Grover Cleveland showed President Roosevelt's deep-sighted judgment again. His appreciation of Cleveland's death was one of the best put forth, and contrasted nobly with the cowardly shuffling at Denver. His renaming of a national forest reserve for the Democrat who worked so sternly for our national resources was a still surer proof of open-mindedness. These instances of fair thought, transcending party lines, are always welcome. His conspicuously just treatment of Cleveland deserves to rank high among President Roosevelt's recent acts, and will contribute, like his abnegation for Taft, in support of his given word—and like his forest policy, in spite of western votes—to build for posterity the figure of one who was not only a popular idol, but also a large and generous servant of the truth. Of course he makes mistakes. A man all of whose thinking is done aloud, and many of whose acts are experimental, must often be in error, but the president usually backs water when he is wrong and persists when he is right. There is need in a free government for many kinds of men. We may realize that Charles William Elliot was the ideal man to meet the rowing situation, before the last race between Yale and Harvard, and yet understand at the same time how enormously valuable a citizen Theodore Roosevelt is. The more kinds of value we are able to appreciate in our public men, the more wholesome is our outlook, the sweeter is our public life. Happily partisanship is every year less bitter.—From Collier's for August 1, 1908.

COVINGTON BROTHERS.

Contract With Hummel Brothers for Sprinkling System.

A contract was made this week, through Hummel Brothers, by Covington Brothers & Company, for the installation of a complete sprinkler equipment in the mammoth wholesale grocery at Third and Jefferson streets. Covingtons also contracted with Hummel Bros. for the latter to write all of their insurance, under these contracts, and about two-thirds of the annual premium will be saved by the firm.

(Continued from last issue.)

He was secure from observation by police.

Two men were talking, and evidently the matter under discussion was of importance, for they spoke with a kind of dogged deliberation, and the long pauses in the dialogue lent color to the belief that some weighty matter was in debate. The heat of the rain on the balcony and its steady rattle in the spot intervened to dull the sound of voices, but presently one of the speakers, with an impatient exclamation, rose, opened the small glass paneled door and returned to his seat, with an exclamation of relief.

Armitage had dropped down the ladder half a dozen rounds as he heard the late snap in the door. He waited an instant to make sure he had not been seen, then crept back to the balcony and found that the slight opening in the door made it possible for him to see as well as hear.

"It's stifling in this hole," said Chauvenet, drawing deeply upon his cigarette and blowing a cloud of smoke. "If you pardon the informality I will lay aside my coat."
 He carefully hung the garment upon the back of his chair to hold its shape, then resumed his seat. His companion watched him meanwhile with a certain interest.

"You take excellent care of your clothes, my dear Jules. I never have been able to fold a coat without ruining it."

The rain was soaking Armitage thoroughly, but its persistent beat covered any slight noises made by his own movements, and he was now intent upon the little room and its occupants.

He observed the care with which the man kept close to his coat, and he pondered the matter as he hung upon the balcony. If Chauvenet was on his way to America it was possible that he would carry with him the important paper whose loss had caused so much anxiety to the Austrian minister. If so, where was it during his stay in Geneva?

"The old man's death is only the first step. We require a succession of deaths."

"We require three, to be explicit, not more or less. We should be fortunate if the remaining two could be accomplished as easily as Stroedel's."

"He was a beast. He is well dead."

"That depends on the way you look at it. They seem really to be mourning the old beggar at Vienna. It is the way of a people. They like to be ruled by a savage hand. The people, as you have heard me say before, are fools."

The last speaker was a young man whom Armitage had never seen before. He was a decided blond, with close-trimmed straw-colored beard and slightly curling hair. Opposite him, and facing the door, sat Chauvenet. On the table between them were decanters and liqueur glasses.

"I am going to America at once," said Chauvenet, holding his filled glass toward a brass lamp of an old type that hung from the ceiling.

"It is probably just as well," said the other. "There's work to do there."

He was now intent upon the little room and its occupants.

We must not forget our more legitimate business in the midst of these pleasant side issues.

"The field is easy. After our delightful continental capitals, where, as you know, one is never quite sure of oneself, it is pleasant to breathe the democratic airs of Washington," remarked Chauvenet.

on the regrettable departure of In belle Americaine. If you had not been so intent on matters of state you would undoubtedly have found her here. As it is, you are now obliged to see her on her native soil. A month in Washington may do much for you. She is beautiful and reasonably rich. Her brother, the tall captain, is said to be the best horseman in the American army."

"Humph! He is an ass," ejaculated Chauvenet.

A servant now appeared bearing a fresh bottle of cordial. He was distinguished by a small head upon a tall and powerful body and bore little resemblance to a house servant. While he brushed the cigar ash from the table the men continued their talk without heeding him.

Chauvenet and his friend had spoken from the first in French, but in addressing some directions to the servant, the blond, who assumed the role of host, employed a Serbian dialect.

"I think we were saying that the mortality list in certain directions will have to be stimulated a trifle before we can do our young friend Francis any good. You have business in America, eh?" That paper we flicked from old Stroedel strengthens our hold on Francis, but there is still that question as to Karl and Frederick Augustus. Our dear Francis is not satisfied. He wishes to be quite sure that his dear father and brother are dead. We must reassure him, dearst Jules."

"Don't be a fool, Durand. You never seem to understand that the United States of America is a trifle larger than a barnyard. And I don't believe those fellows are over there. They're probably lying in wait here somewhere ready to take advantage of any opportunity—that is, if they are alive. A man can hardly fail to be impressed with the fact that so few lives stand between him and—"

"The heights—the heights!" And the young man, whom Chauvenet called Durand, lifted his tiny glass airily.

"Yes, the heights," replied Chauvenet a little dreamily.

"That declaration—that document! You have never honored me with a glimpse, but you have it put safely away, I dare say."

"There is no place—but one—that I dare risk. It is always within easy reach, my dear friend."

"You will do well to destroy that document. It is much better out of the way."

"Your deficiencies in the matter of wisdom are unfortunate. That paper constitutes our chief asset, my dear associate. So long as we have it we are able to keep dear Francis in order. Therefore we shall hold fast to it, remembering that we risked much in moving it from the lamented Stroedel's archives."

"Do you say 'riched much?' My valued neck, that is all!" said the other. "You and Winkler are without gratitude."

"You will do well," said Chauvenet, "to keep an eye open in Vienna for the unknown. If you hear murmurs in Hungary one of these fine days—Nothing has happened for some time; therefore much may happen."

He glanced at his watch.

"I have work in Paris before sailing for New York. Shall we discuss the matter of those Peruvian claims? That is business. These other affairs are more in the nature of delightful diversions, my dear comrade."

"They drew nearer the table, and Durand produced a box of papers, over which he bent with serious attention. Armitage had heard practically all of their dialogue and, what was of equal interest, had been able to study the faces and learn the tones of voice of the two conspirators. He was cramped from his position on the narrow balcony and wet and chilled by the rain, which was now slowly abating. He had learned much that he wished to know and with an ease that astonished him, and he was well content to withdraw with gratitude for his good fortune.

His legs were numb, and he clung close to the railing of the little ladder for support as he crept toward the area. At the second story his foot slipped on the wet iron, smooth from long use, and he tumbled down several steps before he recovered himself. He listened a moment, heard nothing but the tinkle of the rain in the spout, then continued his retreat.

As he stepped out upon the brick courtyard he was seized from behind by a pair of strong arms that clasped him tight. In a moment he was thrown across the threshold of a door into an unlighted room, where his captor promptly sat upon him and proceeded to strike a light.

Let Something Good Be Said.
When over the fair fame of friend or foe
The shadow of disgrace shall fall;
Instead,
Of words of blame or proof of thus and so,
Let something good be said.

Forget not that no fellow-being yet
May fall so low but love may lift his head;
Even the cheek of shame with tears is wet.
If something good be said.

No generous heart may vainly turn aside
In ways of sympathy, no soul so dead
But may awaken, strong and glorified,
If something good be said.

And so I charge ye by the thorny crown,
And by the cross on which the Savior bled,
And by your own soul's hope of fair renown,
Let something good be said.

—James Whitcomb Riley.

He—They tell me you are great at guessing conundrums.
She—Well, rather good.

He—Here's one for you: If I were to ask you to marry me, what would you say?
—Plek-Me-Up.

NEW ZEALAND'S WHITE ISLAND. Always Enveloped in Clouds of Steam—Its Strange Lakes.

White Island derives its name from the clouds of white steam in which it appears to be continually enveloped. Its area is only 600 acres, and its height about 800 feet above the sea level.

In form and color it is like a reposing camel, while its interior with its gray, weatherbeaten, almost perpendicular cliffs, recalls the Coliseum at Rome. Overhanging the southern landing place stands a column of rock closely resembling a sentinel, which has been dedicated to the memory of Capt. Cook. The water of the island is of a pale green hue, and anything dipped into it becomes of a red brick color. The fumes of sulphur are always plainly perceptible.

On a fine moonlight night a wonderful sight is afforded to anyone who will sit in an open boat in one of the lakes of the island. Covering an area of fifty acres is an immense cauldron hissing and snoring and sending forth volumes of poisonous steam, while all chances of egress appear to be denied by the steep, silent and gloomy cliffs.—British Australasia.

S.S.S. MAKES A LASTING CURE

There are certain mineral medicines which will remove the external symptoms of Contagious Blood Poison, and shut the disease up in the system for awhile, but when the treatment is left off the disease will surely return. Then the loathsome symptoms of ulcerated mouth and throat, copper-colored spots, falling hair, sores and ulcers, etc., are usually worse because the disease has made rapid progress on the internal members, and weakened the constitution and general health of the sufferer. S. S. S. is the only remedy that can be used with perfect safety in the treatment of Contagious Blood Poison, and with the assurance that a lasting cure will result. This medicine, made entirely of roots and herbs of recognized curative and tonic value, antidotes and destroys the powerful virus of the disease, and by purifying the blood of every particle of the poison and enriching and strengthening the circulation, removes every symptom of the trouble. S. S. S. does not hide or cover up the disease in any way, but drives it entirely out from the blood, leaving not the slightest trace for future outbreaks. Home treatment book with valuable information and any medical advice desired sent free to all who write.

EXCURSIONS FOR COLORED FOLKS

Arrive Early and Fully 5,000 are in City.

Bakers Do Rushing Business and Small Lunch Stands Are Numerous Today.

BOATS HIRING MANY ACROSS

"Eighth of August" is here and so are 5,000 celebrators of Emancipation Day. Early this morning they began arriving on special trains, by boats and in buggies. Until 8 o'clock this morning rain fell constantly and then it quit for a half hour. At intervals during the day showers came, but undaunted the celebrators were out after a good time.

The first excursion train arrived early this morning from St. Louis with thirteen well loaded coaches. About 1,000 colored visitors came from Missouri and Illinois to spend the day. The Louisville excursion reached Paducah at 8:35 o'clock after an all night run. The train had sixteen coaches, and about 1,600 passengers. The Overburg, Tenn., and Memphis trains arrived about noon with good loads of the Emancipation Day celebrators. Over the Nashville, Chattanooga & St. Louis railroad twenty coaches arrived with an excursion from Jackson, Tenn., and it brought about 2,000. The J. H. Richardson and Wabash brought up good excursions from Cairo and way landings, while all of the regular packets were turned over to the negroes.

Eleventh street and Broadway was the scene of the celebrators, as all excursion trains stopped there, and there were enough small refreshment and lunch stands to supply the heavy demand. Celebrations were on at Europa park and the fair grounds. The inclement weather kept many from attending, but estimates place the number of colored people at 7,000.

Business was rushing with the bakers last night, and many hundreds of loaves of bread and thousands of loaves were baked by the bakers for the trade. The fish dealers sold out and the butchers had all they could do to furnish the meat. Watermelons were subject to a run too, as well as all fruits. The visitors coming to Paducah will mean the turning loose of several thousand dollars, and it will help business. The police department is well equipped for handling the crowds by working some of the patrolmen over time. Several of the patrolmen who have been off duty for various reasons, have returned and once more the police department has something like a full force. The patrol wagon with a corps of men was ready all day for a hurry call and quiet any disturbance.

SECOND VICTORY

FOR "DR. FLIZ" A. M. LEAVISON & CO.'S POPULAR DRINK.

Case Against T. H. Reed for Selling It On Sunday Dismissed in the Police Court.

A. M. Leavison & company won another signal victory in the police court this morning for their popular soft drink, "Dr. Fliz," when in the case of T. H. Reed, of Ninth and Boyd streets, who was arrested for selling the beverage on Sunday, the jury brought in a verdict of acquittal. The evidence proved there is no alcohol in the drink, and therefore it is no violation to sell it on Sunday, nor is city license necessary for its sale.

In the case against Thomas Cook a few days ago the same verdict was rendered and the drink declared a non-intoxicant, as in this case. "Dr. Fliz" is one of the best sellers Leavison & company have, and the makers contend, as the evidence in these two cases clearly indicated, and there is no alcohol in the drink, and that it is purely a soft drink.

COLORED

TEACHERS CONCLUDE THEIR COUNTY INSTITUTE.

Last Session as Reside With Interest as Any of These That Preceded It.

The last day of the McCracken County Colored Teachers' Institute was no less full of interest than the first day. President Scurry called the meeting to order.

Prof. Jackson recommended that reading and language be made special studies by teachers during school year, and that arithmetic, grammar, and physiology be studied during the first vacation and that geography, history and civics be studied during the second vacation. Music Hall gave a fine exposition of primary number work.

Among excellent things said were those of the imaginative powers of the child should be used in building numbers. Variety is indispensable in securing and maintaining interest. Concrete numbers should be given first. Written work should follow oral work. Construction work of great value. Errors commonly made in teaching arithmetic were treated by Edith Allen who mentioned most prominently the following:

1. Lack of thoroughness. 2. Lack of application. 3. Lack of making indelible impression.

Prof. Jackson emphasized what had been said by the speakers.

Dr. George read a paper on "Sanitation," emphasizing the importance of the teacher in carefully teaching anatomy, physiology and hygiene. Dr. George said:

"A consideration of sanitation includes our homes, our occupations, our modes of life, the food we eat, the water we drink, the air we breathe; it involves school, workshop, poor house, hospital, prison, ship, barracks, etc.

"Since men live in society whatever is detrimental to the health of one neighbor is detrimental to all. Our sanitary environment determines largely our health. Everyone should interest himself in improving the sanitary conditions of his neighborhood and community. Decaying refuse at the back door, nauseating effluvia from ill-kept stables or swine pens, the liquid flowing from the garbage piling the water for domestic use in the filthy alley, the foul dyes are all enemies of public health."

Good health is the normal prerequisite to success, whether of the individual or the community. During recess the teachers viewed a display of primary handwork which was done by Laura Hobbs at the Illinois State Normal University, Normal, Ill.

Prof. Jackson gave the following valuable points on punishment: 1. There is absolutely too much flogging. 2. The teacher who has to do so much flogging is flying in the face of public opinion. 3. There is one good basis for managing a school. The children must have confidence in their teacher and love her. 4. The

back of government is love. 5. The teacher must be resourceful and make whipping the last resort. 6. Natural punishments are the natural consequences of the child's misconduct. Prof. Jackson at this point showed common errors in analysis and percentage, also writing receipts.

Lurena Hamilton, class '08, Lincoln high school, was introduced and made a beautiful address during the course of which she said to the teachers present:

1. Teach as much by example as by precept. 2. The teacher who is perfect in morals, etc., will do more in moulding character than one who is not. 3. Show unruly children that ugly habits displease God. 4. Teachers be honest in all your ways and actions and please God.

The institute was called to order in the afternoon promptly on time, by the president, Ruth Scurry. After preliminaries of opening Prof. Jackson took up the subject, "Nature Study," and gave a comprehensive treatise upon the subject, giving the following aims:

1. Train powers of observation; 2. Interest children in nature; 3. to send children away from school lovers of and students in nature for their own happiness and welfare. Nature study has four values: Intellectual, aesthetic, ethical, religious. Nature is striving every day to become perfect.

After recess the first business was listening to the report of the following committees: Resolutions, nominations. Adopted. Prof. Hamilton spoke concerning the new school law, which is not fully understood. Minutes of the day's session were read and adopted. The institute resolved itself into a county teachers' association and elected the following officers: President, Ruth Scurry; secretary, G. M. Sales.

Committees on transportation: Prof. Jackson, Hamilton, Marphous. Program committee: Laura Carothers, Edith Allen, Prof. G. W. Jackson.

Oaks was selected as the place of first meeting and the third Saturday in September as the time. The Rev. Good and Williams were introduced. S. W. CAUTHERS, Reporter.

SOFT DRINKS MADE BY LAEVLSON & CO. SO DECIDED.

Judge Cross Dismisses a Case in His Court and So Deciding.

Thus, Cole was tried before Police Court Judge Cross, charged with selling liquor without a license, and as it developed he sold A. M. Laevlson & Co., Cremo Teutonic, Dr. Fizz and other non-intoxicating beverages, and as the evidence showed that these drinks were non-intoxicating, the jury on instructions of Judge Cross dismissed the case, which clearly proves that these beverages were non-intoxicating, and the claims of A. M. Laevlson & Co. were sustained, and this decision is of much importance to A. M. Laevlson & Co., and their numerous customers throughout this vicinity who are handling these beverages.

GOOD CROPS

CORN ADVANCED, BUT WHEAT
DECLINED IN JULY.

Yield of Both Cereals, However,
Promises to Be in Excess of
Yield Last Year.

July was a favorable month for progress of corn, but not for wheat. According to 1,600 special reports received by the New York Journal of Commerce from all principal states, the condition of these crops on an average date of July 29 was as follows:

July, June, Change, 1937
Corn 83.5 81.3 +2.2 83.1
Wheat 88.0 93.0 -5.0 89.2
* Increase, † Decrease.

This is an advance of 2.2 points in corn and a decline of 5 points in wheat. The latter crop almost invariably loses in condition during July, and this deterioration compares with a loss of 7.8 points last year and 4.5 points in 1936. Spring wheat, however, is still 4.6 points above the average, so its condition must be regarded as satisfactory. Winter wheat is practically harvested, and threshing returns thus far received indicate an average yield of 17.1 bushels per acre, compared with 17.5 bushels a year ago. Spring wheat harvesting is now fairly started, and it is evident that recent crop damage reports have been much exaggerated.

Applying the data given below to the old produce exchange formula, the indicated yield of corn and wheat would figure out as follows:

Corn, bushels indicated, 1938, 2,747,000,000; actual, 1937, 2,592,000,000.

Wheat, winter, bushels indicated, 1938, 2,314,225,000; actual, 1937, 408,908,000.

Wheat, spring, bushels indicated, 1938, 272,734,000; actual, 1937, 239,179,000.

Total wheat, bushels indicated, 1938, 404,429,000; actual, 1937, 648,087,000.

If these expectations are realized the country will have a corn crop of about 150,000,000 bushels larger than last year, and surpassed only once by the bumper yield of 2,927,000,000 bushels in 1936. August, however, it must be noted, is frequently a period of deterioration in corn. The yield of wheat would be about 30,000,000 bushels more than last year's crop, but would only reach about an average yield, having been exceeded six times since 1898. There is nothing in these returns on which to base any extravagant optimism. All that

RECORD PRICE FOR SPIRITS.

Owing to Cost of Corn Distillers Charge \$1.37 a Gallon.

Cincinnati, Aug. 8.—An advance of two cents a gallon in the basic price of distillers' finished goods, or spirits, became effective today, making the basic price \$1.37 a gallon. Word to this effect was received by W. H. Hobart, of the Diamond Distilleries company, and the advance was posted on change.

This is the highest price that spirits ever touched in this market. The \$1.35 price, which was made last fall, at that time was regarded as a record, the increase being made because of the high price of corn.

When the \$1.35 basis was established No. 3 corn, or distillers' corn, as it is termed in the trade, sold around 60 cents a bushel. This same corn is now quoted at 79 to 80 cents in the local market.

There was no Cairo and Paducah packet today.

The steamer Dick Fowler will be in tonight from Mound City, where she was generally overhauled, and will leave at 9 o'clock tomorrow morning on an excursion trip to Cairo. The Dick will enter her regular trade Monday.

The John S. Hopkins was the Evansville packet this morning, arriving on time and returning at noon. She had a big trip of freight each way and a fair top of passengers.

The Joe Fowler will be in from Evansville tomorrow morning and will return to Evansville Monday at 11 o'clock.

The Royal was in and out on time today from Holmden with a fair trip of freight and passengers.

The George Cowling made her two regular trips today from Metropolis with a big passenger and freight business each trip.

The Wabash and the J. B. Richardson both brought in colored excursions from Cairo today.

The steamer Kentucky will leave at 6 o'clock tonight for Riverton, Ala., and all way landings with a big trip of groceries and a number of passengers. She will return next Thursday night.

The H. W. Huttoff will be in tomorrow afternoon from Nashville and all way landings. She will leave Monday at noon for Clarksville and return Tuesday night, then leave at noon Wednesday for Nashville and all way landings and will return next Sunday.

PRETTIEST PARK

PARK OF LOUISVILLE DIVISION
IS AT PADUCAH.

Illinois Central Station Will Take the
First Prize Again—L. P. Brandon, Gardener.

It is certain that the park at the Union station will capture first prize as the prettiest flower garden in the Louisville division. Paducah has had a monopoly on the prizes except when two years ago Princeton woke up and captured the blue ribbon. Last year Paducah redeemed herself, and this year will be no exception, as the railroad men pronounce the Paducah garden "the prettiest in the division." L. P. Brandon, the gardener, has been intrinsically in his work, and all of the flowers are unusually pretty and well arranged. More flowers have been planted this year than ever before, and the lawn presents a pleasing eye rest to the traveler who has been on a long journey.

Nashville will be the opponent of the Paducah Indians tomorrow afternoon at League park, and a good game may be expected. They are crack players, and would not have played Paducah, had not their regular game been cancelled. Fulton will be here next Sunday, and the Paducah boys are anxious to pay up for their drubbing. However, it took extra laddings for Fulton to beat the Indians. An excursion will be run from Fulton and there will be plenty of rooting.

A Missing Link.

A certain drill sergeant, whose severity had made him unpopular with his company, was putting a squad of recruits through the funeral exercise. Opening the ranks so as to admit the passage of the supposed cortege between them, the instructor, by way of practical explanation, walked slowly down the lane formed by the two ranks, saying as he did so: "Now, I am the corpse. Pay attention!"

Having reached the end of the party, he turned round, regarded them with a scrutinizing eye for a

moment or two, then remarked: "Your ranks is right and your heads is right, but you 'aven't got that look of regret that you ought to 'ave."—Till-Hits.

FALL GOODS IS
DRY GOODS STOCK

Some Prices Go Up and Some
Prices Go Down.

But Hubby Will Go Down—in His
Pocket Just the Same This
Season.

WHAT THE WOMEN WILL WEAR

All of the dry goods and department stores have about finished their inventories after the mid-summer clearance sales, and now the shelves and counters are teeming with values in fall goods. Paducah's merchants have secured an unusually large stock of choice merchandise for autumn and winter, and all the latest styles and patterns are represented. Some of the goods come at rather sharp advances in prices, but other articles had a drop in price.

The purchaser of silks for autumn and winter wear probably will have to pay the sharpest advance for fashionable colors and fabrics. In order to make the goods in vogue the manufacturer has been compelled to pay higher prices for raw silk. Most of the silk fabrics belong to the soft clinging order, which requires more of the raw product to make it up. Raw silk is selling for \$4.25 and \$4.60 a pound for the best grades, and manufacturers cannot afford to sell it at the present price.

Stripes and border silks will be seen in all of the latest fall costumes, and tailored shifts will be the thing for street wear and for dressy occasions. For evening wear soft clinging effects will be favored, such as chiffon silks, crepe de chine and silk velvets in the new novelty patterns. Silk tops and coats will be worn to a greater extent than last fall and will be made up from peau de soie, satin, heavy, soft satin finished silks and to some extent from brocade silks.

Much lace will be used this autumn on winter dresses and there has not been a decline in the importations from Switzerland. Prices on laces will be lower this year than for any season since 1915. The fashion of wearing an embroidered shirt waist during the fall and winter is growing, and it gives the manufacturer an all around business instead of a summer business.

The housewife who purchases her linens now will be able to get better values for less money than later. However, in the past few days there has been a sharp advance, but according to traveling men they look for the price to drop about 15 per cent. Excellent values in dress linens in all of the popular shades and novelty effects at 20 cents a yard and up. Damask cloth and napkins are also lower in price, and may be purchased in a large variety of patterns. For late fall and next spring the prices will be higher, as Belfast manufacturers, the best makers of Irish linens, have notified the buyers that the price will be advanced a round.

For autumn the women will be offered flannelettes and other styles of mapped cotton dress goods at lower prices that have been quoted for some seasons.

The manufacturers have been compelled to hurry out stocks at reduced prices. The stores are making a good showing as a result. The dark shades in solid color patterns are popular for autumn wear, as are the dark fancies. Where worsted effects have been produced the quiet patterns are the most popular. Staple lines of dress flannels and prints will be sold cheaper than last year.

Cretons will also be popular for dresses this year, and the stores have laid in a large supply of this old-fashioned goods. Creton was used by our grandmothers for curtains and the old fashioned goods will be all the vogue. All of the patterns are large and flowery. The goods are cheap and in the cities it is being used for shirt waists, as well as for covering parasols.

DeWitt's Kidney and Bladder Pills will promptly relieve all Kidney and Bladder disorders. Sold and recommended by all druggists.

CITY BUYS FUEL
CENT LESS THAN
SCHOOL TRUSTEES

At a meeting of the finance committee of the general council it was recommended that the city purchase coal this year from the Nortonville and Carbondale companies at 7 cents for run of mine delivered, or 6 cents on the tracks. This is one cent cheaper than the school board secured the West Kentucky run of mine coal.

The school board contracted with the Johnston Fuel company at 8 cents, and the Pittsburgh company for lump at 11½ cents. Secretary Bird said the Pittsburgh lump was but a half cent higher than the West Kentucky lump. He said it was the understanding of the trustees that they could get West Kentucky run of mine for 7½ cents on the tracks, or 8 cents delivered, and they chose the latter as cheaper.

City officials declare that the school trustees were offered the privilege of including their supply in the city contract, which would have given them their West Kentucky run of mine coal at 7 cents delivered, instead of 8 cents; but they chose rather to contract separately, a matter of indifference to the city as no difference is made in the price of the city's coal.

HENRIETTA CROSMAN

TO APPEAR IN SOUTH.

New York, Aug. 8.—Negotiations were completed today whereby Henrietta Crossman, who is a grandniece of Stephen C. Foster, the composer of "My Old Kentucky Home," and "Swanee River," and other well known southern melodies, will this fall make a tour of the south, the first she has ever made. Heretofore Miss Crossman's time has been so taken up with her New York engagements that a tour of the south has been impossible. This season she requested that her managers book her through the south, in order that she might be able to present "Misses Nell" and "As You Like It," among those from whom her family sprang.
